## DECLARES NAVY NEVER IN BETTER CONDITION

Admiral Wilson Refutes Claims  
Of Sims That United States  
Navy Was Unprepared.

Insists Entire Navy Immediately  
Entered Into Prosecution Of  
War.

(By Associated Press)

Washington, April 8.—The vessels on the active list of the Navy were never better prepared for war than when the United States joined the Allies, and the Navy Department had "full and complete" plans to combat a German offensive against the coasts of the United States, Admiral H. B. Wilson today told the Senate committee investigating the Navy Department's conduct of the war.

Replying to criticisms made by Rear Admiral Sims that caused the investigation, Admiral Wilson asserted that "from the moment war was declared, the entire Navy—the department as well as the fleet—entered into the prosecution of the war with the greatest energy, and its accomplishment deserves the commendation of the nation."

Planned Seizure of Lower California and State of Sonora

(By Associated Press.)

El Paso, Texas, April 8.—Five persons were under arrest today and the federal grand jury had additional evidence which might lead to other arrests in connection with what federal officials said was one of the most pretentious Mexican revolutionary plots ever conceived on the border.

But for the arrest by military forces in the Big Bend district of a boy and a girl, the latter said to be a niece of Villa, officers admit the plan for the seizure of Lower California and simultaneous campaigns against Sonora and other Mexican states might have developed into serious proportions.

(By Associated Press)

Chicago, April 8.—The strike of "insurgent" members of the railroad brotherhoods which began a week ago in Chicago today had spread to other parts of the United States and there were indications that the series of rebellions against organization directions had not reached its crest.

East and west bound freight movement across the continent, already restricted by the Chicago strikes, was hampered further by switchmen striking at such strategic gateways as Buffalo and Kansas City and at such industrial centers as Joliet and Decatur, Ill., and Gary, Ind.

Strikes were threatened today at Milwaukee, St. Louis and East St. Louis, gateways to the northwest and southwest. Strikers predicted also that 25,000 men in northern New York would join them, cutting off freight traffic from Buffalo to New York and Boston.

The yardmen's association, insurgent organization which caused the strike, was forming branches in numerous terminal centers, reports indicated.

H. E. Reading, general organizer of the yardmen's association, announced the railway clerks and freight handlers brotherhoods would take strike votes Saturday.

At Cincinnati 1200 freight handlers demanded an answer by Saturday night to their demands for a wage increase.

Industries throughout the Chicago district have begun to feel the effects of the strike seriously. Packing house heads said the total number of stockyards employees idle would be 65,000 if the strike continues until Saturday.

A bulletin that the strike was illegal, sent out by President Lee of the Brotherhood of Railway Trainmen, was posted on bulletin boards of the railroads today.

Arrangements were made today for a conference at Cleveland of the heads of brotherhoods of railway trainmen, engineers, firemen and engine men.

Fifty motor truck trains left Chicago today each loaded with 30,000 pounds of fresh meats billed to near-by towns.

## FORECAST ADOPTION OF PEACE MEASURE

The Republicans in Adopting  
Rule Offered.

Campbell Says People Wearied  
Of Life Under War-Time  
Powers.

(By Associated Press)

Washington, April 8.—Adoption of the republican peace resolution tomorrow by the House was indicated today when the rule limiting debate on the measure to nine hours was adopted with some democrats joining the republicans in supporting it.

The vote was 213 to 155. Immediately afterward the debate on the resolution itself was opened. It will continue until five o'clock tomorrow afternoon when a vote on the resolution is expected.

Seven democrats voted for the rule including Representative Sherwood of Ohio.

Declaring that the war with Germany was over and that Congress should assert the fact, Chairman Campbell, of the rules committee opposed the fight in the House for adoption of the joint resolution, declaring the state of war at an end.

The galleries were crowded at the beginning of the debate. Mr. Campbell said the people were wearied by a year and a half of life under an executive with war powers in time of peace.

The strikers said their action was the result of being underpaid and predicted the entire Pacific coast, if not the whole nation, would be affected soon.

FRENCH MUST WITHDRAW

German Police Assist French  
Troops in Restoring Order

(By Associated Press)

Frankfurt, Germany, April 7.—This afternoon's clash between the French troops and the population, resulting in the killing of six Germans and the wounding of more than two score others, was followed by a strong display of French military force, which brought about the restoration of order by evening.

It was a rumor that the French had been forced by the pressure of the Allies and the United States to withdraw from the city that started the trouble.

The crowd jeered and taunted the troops, yelling: "You've got to get out." A French officer ordered the crowd to disperse, and when the order was ignored a machine gun was brought into play. Disturbances also occurred in other parts of the city.

The firing attracted a great crowd, which encircled the troops, and the French then began bringing up reinforcements, four tanks between solid columns of soldiers rolling in ready for action.

The German police aided the French in the action taken to restore quiet, quickly stationing groups at strategic points to control the crowds.

A French staff officer deplored the happenings, in conversation with the correspondent tonight. The earlier part of the day was passed by the French in completing their occupancy of Frankfurt.

The Greatest Remedy for Nervousness I Have Ever Used" She Says

And Mrs. Birkhimer found this famous family tonic exceedingly helpful in overcoming her other serious, troublesome and painful ills. Thus she told the story and signed her name to it a few days ago:

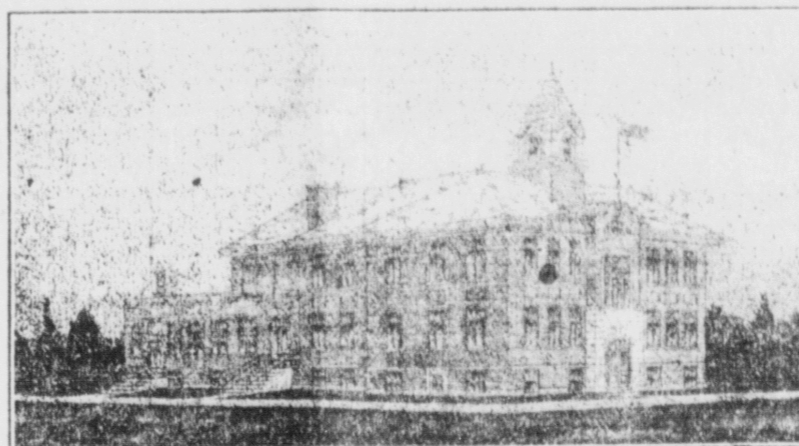

Nerv-Worth Co.—For more than a year, I have been in a very nervous condition. Could not sleep and get any rest. Tossed about the bed all night, and was going down ever day. Appetite and digestion in bad condition. I tried in every way and all the remedies I could learn of to rid myself of this terrible nervous condition, but could find nothing until I got a bottle of Nerv-Worth. Three bottles put me in fine condition every way. I can now sleep soundly all night through and feel rested and strong in the morning. Appetite and digestion good and my kidneys no longer annoy me. I think Nerv-Worth is the greatest remedy for nervousness that I have ever used or know of.

Showing First Floor Plan With Auditorium Seating Several Hundred Persons.

If the \$60,000.00 bond issue is approved by voters of the Bloomingburg Village School District on April 17th, the above diagram shows the building that Bloomingburg will be able to boast as her public school. The diagram shows the first floor of the proposed improvement.

Architect A. L. Rhoads of this city has drawn up plans for the improvement, the drawing showing the building as it would appear when completed. Bloomingburg will take its place with the most improved schools of the state and will have all facilities that are obtainable in the city schools.

On the first floor of the addition there will be four large class rooms and an auditorium with modern stage and two dressing rooms. The second floor will contain five classes rooms the superintendent's office, and a library where all books of reference will be kept for the use of high school students. Of this amount the railroads, telephone companies, and other corporations pay taxes of \$9,944.00 or about one thirteenth of the entire amount. The bonds, if authorized, will be paid

## The Y. W. C. A.

The movement in Fayette county to establish permanently upon an enduring basis a Young Women's Christian Association deserves the cordial support and the earnest co-operation of every forward thinking man and woman in the county.

The Young Men's Christian Association organization as a force for good and as a practical working unit in the community life has already been demonstrated conclusively in Fayette county and throughout the world.

The opportunity for good in such an organization for young women is no less, perhaps greater, here and throughout the world today than it is for the young men.

The women of America following the call for war work to which they responded so splendidly, the coming of suffrage and the numerous calls for them in the world, are just "coming out" or rather coming in to their own. A tremendous force for good and for practical benefit in everyday life of the nation and the world is wheeling into action and we must take the necessary steps to preserve that force in all the splendid purity and strength as it comes from the great American home.

No better means has ever been devised and placed in operation than the young men's organization. Its accomplishments have been marvels of success in preserving the boys and young men and molding them, according to the high moral, mental and physical standards of the organization into the present day American manhood which stands unrivaled in its real worth.

Our boys were and are precious to the nation, to society and to the home. We organized and maintained the "Y" for their pleasure, protection and education. Our girls are as precious to the nation, to society and to the home as the boys and we are organizing the "Y. W." It must be supported. It is their great safeguard and ours at the same time. Support the movement.

## Changeable April

A changeable mood has marked the weather of the early days of April—weather of all sorts the same day.

Bright sunshine and blue skies were changed within a few fleeting moments, for clouds and showers with, at intervals, a snow squall driving straight out of the north.

The folks with new spring finery have been as much surprised at the pranks which the elements played, at their expense, as were the birds just back from the southland for the summer season, and the buds and flowers, encouraged by the warm days of late March to venture forth from the protection of winter quarters.

Many delicate flowers, which had come out in spring splendor, were bruised and beaten down by the angry blasts of winter, rising again when the gusts had passed by and the sunny smile of genuine April weather once more inspired their confidence.

The song birds held many a noisy conclave on the branches of the trees as they sought protection of the scant covering which the buds afforded and sat on their feet to keep them warm.

Thus far, however, no great harm has been done, the style shows of people and of nature have been postponed and warmer, more settled weather is promised soon by the observers.

## "Prunes, Pie and Pills."

The "flying squadron" of some one of the numerous governmental bureaus got busy in New York City a few days ago in a quick investigation and a hurried effort to bring some relief to the inhabitants of the metropolis, suffering like the rest of us from exorbitant prices of necessities and foodstuffs, and makes a very impressive report of its work.

The efficient action of the squadron disclosed that the prices asked for prunes, pies and pills was excessive.

Prices of sugar, clothing, canned goods and the scores of other necessary commodities were not mentioned. The squadron confined its endeavors, so far as the final report shows, to the prices on prunes, pies and pills.

That is simple. Seriously, as ridiculous as the report seems at first, it is better than the average of these governmental committee reports. The few reports made find nothing wrong and most committees and boards never do wind up their work with a definite report of anything actually done.

Prunes, pies and pills—heavy work for the flying squadron. A fizzle, of course, but not quite so much of a fizzle, after all, as many others.

If the squadron had maintained a dignified silence it might have been better, but then the world would not have known that Gotham folks were paying too much for prunes, pies and pills.

The presumption is that the awful toll exacted by the profiteers in prunes, pies and pills, from New York residents will continue but we at least know what the rascals who deal in those vital necessities of life are doing.

## POETRY FOR TODAY

### THE GREEN MIST

When the green mist begins about the trees,  
There is a freshness in the morning air;  
New life wakes in the blood, and everywhere  
Burgeons earth's beauty, borne on every breeze.  
Hark to the robin, swinging on the bough,  
His red breast bursting with its music glad,  
The sparrow's chatter, and the blue-bird's call;  
With all this melody who can be sad?  
We should be glad in spring, when darkness flees,  
For One who broke the saddest darkest bond  
Rose in the springtime to His heaven beyond  
When the green mist began about the trees.

## RANDOM NOTES

### SOCIAL : PERSONAL MENTION : CLUBS

One of the big things the Y. W. C. A. is doing is the establishing of room registries and the development of co-operative homes for women.

The National Association has in operation 105 room registries in the United States and has already drawn up plans for the use of cities or factories wishing to put up travelers' lodges and hotels for professional women or residences for younger girls on a sound financial basis with return on the investment.

Experts estimate that of 10,000,000 girls in industry, 3,500,000 are living away from home. A new hotel for business women is being built in Washington, D. C., under the supervision of the Y. W. C. A. housing committee headed by Mrs. John D. Rockefeller, Jr., in accordance with the plans the Y. W. C. A. is recommending. The hotel will house 325 women and will require a staff of 75 assistants, most of whom will be women, even down to the bell-hops.

"The day of the charity supported boarding house for girls has gone; the day of the self-supporting boarding home has gone; the day of the money-making boarding home with a minimum of a Liberty Loan return on the investment is here," Miss Geary says.

Tents are being built in Akron, Ohio, to provide for the overflow of population. Last fall the Y. W. C. A. established a room registry there, without the aid of which school teachers could not have been housed, the Akron superintendent of the schools states. The only organized room registry Chicago has ever known was given it by the Y. W. C. A.; and all room registry work in Detroit, Michigan, has been assigned the local Y. W. C. A. by the community union which increased the "Y" budget to meet this work.

From smaller towns as well as cities comes the call for help. The association in Piqua, which has a registry, was asked to secure boarding places for forty girls within three days notice.

## WILL REBUILD ROSE AVENUE

The rebuilding of Rose Avenue starts without delay.

This announcement was made Thursday afternoon as result of action of council at the last session, which authorized the placing of material on one of the three streets leading to the new foundry plant, Rose Avenue being decided upon as the logical street for improvement, and the one most desired by the foundrymen.

Material of an unusually high percentage of crushed stone and gravel, and almost as good as new material, will be placed on the street as it is excavated from some of the streets now undergoing improvement.

The Andrews Asphalt Paving Company superintendent announces that he will use his grader in placing the material in proper shape after it is spread on Rose Avenue, and then roll it down with his street roller, so that within the next two or three weeks Rose Avenue should be in a very passable condition in all kinds of weather.

## NEW THEME FEATURES REALART AT PALACE

The Palace Theater is showing a Realart—"The Fear Market," with Alice Brady starring Thursday and Friday matinees both days.

"The Fear Market" is a strong story on a new theme—the plot deals with the menace of society papers, whose scandalous expositions drive their victims to disaster, sometimes to death. Alice Brady in the leading role of the New York society girl acts the part and is exceedingly good to look at in her modish gowns—the feminine element will appreciate her lavish wardrobe.

It is a highly entertaining drama and put on with the wonderful photography that is always a feature of a Realart. The stage settings are adequate—beautiful hotels and lavish apartments both furnished in excellent taste. The cast is good all through.

## FORCED TO RAISE SUBSCRIPTION RATE

In announcing an increase in its subscription rate from \$1.50 to \$2.00 per year, in advance, to subscribers in the first postal zone and \$2.50 to subscribers in the second postal zone, the Greenfield Republican says:

This additional price beyond the second zone is because of the increased postage now charged for transportation.

The increase in subscription price is made necessary because of the increased cost of everything entering into the making of a newspaper. The management has hesitated in taking this step of advancing the subscription rate, hoping there would be an end to the constant advance in all materials and labor necessary in putting out a first class paper, but instead the cost of every thing is constantly increasing.

"Print paper has advanced 300 per cent.

"Printing ink has advanced 125 per cent, and a further advance is to be made May 1st.

"Composition, (putting matter in type) has advanced 110 per cent.

## ADULTERATED MILK BRINGS HEAVY FINE TO CHILlicotheANS

Because they were found guilty of selling adulterated milk instead of milk of the standard required by the state, several dairymen and restaurant keepers in Chillicothe have been heavily fined by Mayor Story of that city.

W. P. Harper drew \$100 and the costs. Denver Harper drew \$100 and costs. Fred Betts escaped with \$50 and costs. John Mays drew \$50 and costs with fines suspended and Mrs. Mary Townsend and W. D. Panoretus each drew \$50 and costs and the fines were suspended.

In reviewing the milk cases Mayor Story said:

"There are plenty of lawyers here to represent the defendants, but not a single one to represent the babies and children of Chillicothe. The state has set a fair standard for our milk supply and it must be maintained. We cannot afford to drop the bare minimum of one per cent."

## INCREASED VALUES

Are you carrying sufficient insurance to cover the present value of your property?

In the past three years the value of real and personal property has nearly doubled.

Have you increased your insurance by an amount that will correspond with the advance in REPLACEMENT VALUE of your property?

Have you considered how much money you might be obliged to contribute in case of loss, because your insurance may not fully protect you under present value conditions?

In nearly all instances of renewal we are obtaining increased lines on all buildings and stocks.

Present forms of policies allow you to take insurance without notice to other companies.

## STATE BANKERS TO ISSUE REPORT

The State Bank Section of the American Bankers Association has undertaken to compile and publish statistics pertaining to State-chartered banking in institutions similar to statistics regarding National banks published by the Comptroller of the Currency.

There are now in the United States 21,028 State-chartered banking institutions including commercial State banks, trust companies and savings banks. The total resources of such institutions are \$25,965,675,836.30. These statistics have been compiled by Secretary R. N. Sims of the National Association of Supervisors of State Banks. There are also in the United States 7,705 National banks with total resources of \$20,799,550,000.00. The total number of banking institutions in the United States is therefore 28,733 with total resources of \$46,765,225,836.30.

The foregoing statistics pertaining to State-chartered banking institutions are based upon reports of the average date of June 30, 1919. For the purpose of comparison the statistics of National banks have been taken from the report of the Comptroller of the Currency for the same date.

Another activity of the State Bank Section is to support the proposed amendment to the National Bank Act providing that State-chartered members of the Federal Reserve System shall be eligible to designation as Government depositories. A bill to such effect has already been introduced in Congress with good prospects of its passage.

Another activity of the State Bank Section is to furnish information concerning the establishment and administration of trust departments in State banks with due regard to responsibilities involved in trust transactions.

## OBTAINS A DIVORCE FROM FORMER PUPIL

Middletown, Ohio, April 7.—Middletown school circles have been stirred by news that the marriage last spring of Miss Pauline O. Emberson, teacher of English in Middletown High School, to Harry Parker Whitesell, one of her juniors, had its culmination when, about September 12, 1919, Mrs. Whitesell filed petition for divorce.

She charged gross neglect and incompatibility. The groom is a son of Mr. and Mrs. J. A. Whitesell, of Hamilton and Middletown pike.

The romance between teacher and pupil, a boy hardly out of his teens began at a student dramatic organization. Announcement of their marriage came with graduation week.

Three months after the wedding Mrs. Whitesell left for Hamilton, going to New York later. Next word came of a petition for divorce, which since has been granted ending a romance which was the talk of high school social circles for months. Young Whitesell still makes his home with his parents.

Miss Emberson was a former teacher in the public schools of this city and her father, Fred Emberson, was a local photographer. Mr. Emberson is dead and Mrs. Emberson has been in very bad health for some time.

When Miss Emberson married her pupil last spring no less a sensation was created here than in Middletown where the queer romance arose.

## LEWIS IS RELEASED SIGNED BY MENDELS

Infielder George Lewis, of Columbus for several seasons a member of the Washington Athletics at various times, and who played third base for the local club last year, did not succeed in making a place with the Columbus Senators and has been signed with the Columbus Mendels.

Lewis was taken south with the Senators but was beaten out for third base by Fred Brainerd. While in the training camp Lewis was handicapped by a sore arm and a jammed thumb. "Lewis" will probably appear here, where he is intensely popular, for a few games this season.

## ATHLETICS UNABLE TO OBTAIN PINTO

Lerton Pinto, lefthander elite, will not pitch for the Washington Athletics this season although an effort to get him has been made. Pinto sends word to Carl Noon, last year's manager, that he is still attached to the Columbus Senators and will be placed in some minor organization by Joe Tinker, of the Columbus club.

The big problem confronting the Athletics is in securing a pitcher able to stand up before the teams that will be hooked by the club management for the season.

## ANOTHER MAT MAN IS BARRED

Promoter Bell, following Cliff Binckley's failure to keep his engagement here to wrestle, has announced that, in accordance with advice of local wrestling fans, he has put up the bars against Binckley appearing here again. Binckley is not the only mat man barred from wrestling in this city. Matty Matsuda and a few others under the management of Chick Saylor being included in the list who are not allowed to appear here.

At Springfield Wednesday night Matsuda and one "Billy Klein" went two hours without a decision, and local fans, after reading reports of the match, unhesitatingly declare it favors of the Matsuda and "Nels Anderson" force in this city a few months ago which resulted in an abrupt end of Saylor's matches here and an end to the "wily Jap" appearing here.

## WAR TAX FORCING NOBLES TO SELL PART OF ESTATES

(By Associated Press)

London, (by mail) — England's war taxes continue to force many of her nobility to sell parts of their great estates. One of the greatest of these which recently has passed under the auctioneer's hammer is that of the Duke of Rutland, which is known as Belvoir. The Duke owns about 59,000 acres of which he is selling about 13,000 acres located in the best part of Lincolnshire hunting district. He explained at a public meeting that the sale was made necessary by the increasing burden of taxation resulting from the war.

Goodby Hall, one of the Duke's properties of 203 acres, was sold privately in the advance of the public sale and 100 tenants have bought from the Duke the farms he had rented to them.

Earl Manvers' estate, known as "Holme Pierrepont" at Radcliffe-on-Trent, has been sold at auction for 42,685 pounds. It covers 320 acres.

It is reported that part of the estate of the Earl of Londesborough, comprising Raincliff Woods and Racecourse has been bought by a Scarborough financier.

## HELP BUILD OUR NEW HOME

## AN OPEN LETTER TO THE CITIZENS OF THE COUNTY

Friends:

Our Prayers have been answered and our dreams have come true. What true Christian has not deplored the divisiveness of our Christian efforts and has not prayed that the day might come when the whole Christian Church might find it possible to attack the tremendous problems of the world as a united and co-ordinated body, showing one solid front to all the enemies of righteousness and massing all of our wealth, our culture, our power, in fact all of our resources and under the inspiration and leadership of God to do the biggest piece of work for humanity, possible, in the shortest possible time?

What true Christian has not dreamed of the day when we would minimize our differences and magnify our likenesses and hear with single understanding the challenge of our Lord, "Go ye into all the world and preach the Gospel to every creature?" When the Church Militant would show herself worthy of the name, "the army of the Lord?" Well, that day is now here. Do not be surprised that your prayers have been answered. The Interchurch World Movement is the answer to our prayers.

No thoughtful person can possibly doubt that this is of the Lord, and being of the Lord, His followers cannot at any cost do aught but be tremendously enthusiastic that this day has come, that this opportunity of opportunities has come, and do the utmost to find wherein they fit into the great plan.

We stood together for the call of war; War that meant destruction, sorrow, death, disease, debt and burdens unspeakable, and this to save the thing we counted dear. Is it possible that there can be a soul who will not stand immediately and wholeheartedly for the thing that means construction, joy and peace, life, health and deliverance, here and hereafter?

Remember the Interchurch World Movement is not designed to rob you of one of the elements that means something vital to you. It does not mean one big church; but it does mean the opportunity to use all of the best in us and the organization to which we belong for the greatest good, to the greatest number, in the shortest possible time.

Again it means the massing of our combined consecration, prayers, organizing ability, wisdom, money, man power, properties, in fact the sum total of all our resources in all their force, under God, administered by His

consecrated stewards for the hastening on of the day of the Millennium. Can you think of a more persuasive, a more compelling challenge and appeal than this. And to think that each one of us can now have a part in it all.

Information is the thing we all need now more than anything else, with an intelligent grasp of all of the facts we can go forward without timidity, without delay. And you may know all about it on Friday of this week. A team of five experts, people who can answer every question about everything connected with every phase of the setting up of this work are to be here in Washington.

We have planned to have the gatherings in the Y. M. C. A. for this instruction but already the assurance of so many coming will make it necessary for us to go to a larger place. Later we will be in a position to announce the perfected program. But just remember that in Washington there will be 3 conferences for you. One at 10:00 a. m., one at 2:00 p. m. and one at 7:30 p. m. These conferences are for one purpose and one only and that is to explain the Interchurch World Movement Program so that no one in Fayette County need be without the most intelligent grasp of this whole matter.

At 5:00 and at 7:30 p. m. there will be a Life Service Conference for all young people of High School age and up to thirty-three years of age in the Presbyterian Church, and all of those in attendance who agree to attend both of these sessions will enjoy a free luncheon at the Y. M. C. A. at 6:30 the purpose of these conferences is to place before the young people of this county the needs of the world hoping that some of the finest of our youth will hear the call to larger service in the days to come.

Just a final word. Every Church Member and every person who while not a Church member is interested in the Church is not only invited, but urged, plead with, to lay aside every other matter and attend every one of the main conferences and to encourage all of the young people to attend both of the conferences especially for them. During the day the stereopticon, charts and all available graphic means will be used to get this story over right. There will be no attempts at oratory but a serious purpose to tell the people every thing they need to know about the Interchurch World Movement.

Every one will also have every possible opportunity to ask all of the questions they desire.

This is wholly a voluntary appeal from one of the rank and file who feels that this whole thing is of the Lord and that no true Christian can afford to be indifferent to this the most wonderful of church opportunities and most clarion of all challenges that have ever been offered in the name of God.

Counting on your presence, and in the name of the interested, I am,

Yours for service,  
FORREST L. FRASER

Chm. County Executive Com.

## CONFERENCES HELD IN GRACE CHURCH

The county wide interest of the Interchurch Movement, indicating that the attendance will be very large, necessitates the changing of the meetings from the Y. M. C. A. to Grace M. E. Church. All of these sessions will be held in Grace Church while simultaneously the Life Service Conference from 5 to 7:30 p. m. will be held in the Presbyterian church.

## Nervous Women

Nothing is so good for you as Vinol, our Cod Liver and Iron Tonic. It invigorates the nerves and creates strength.

### Here is Reliable Proof:

Union Hill, N. J. — "I suffered from a nervous breakdown, was anaemic, thin, had a stomach trouble and could not eat, sleep or work. I had doctored without benefit until one day I read about Vinol, and after taking one bottle I began to improve. It strengthened my nerves, gave me a good appetite, and I sleep well and feel better in every way." — Mrs. CHARLES WEST.

The reason Vinol is superior to any other remedy is because it contains the oldest and most famous body-building and strengthening tonics known to medicine.

## Phosphated Iron Makes Great Changes in the Lives of Young Women

Physicians explain why it so quickly puts new life, strength and youthful vigor in the veins of men and women.

DR. HARLAN PAGE, formerly House Physician, Metropolitan Hospital, New York

a prominent Authority and Specialist on Diseases of the Blood, says that severe tests made on hundreds of patients absolutely convinced him of the extraordinary merits of Phosphated Iron. It often increases the strength of delicate, nervous, run-down folks 100% in two weeks' time.

You can tell at a glance the people who have iron and phosphates in their blood. They are the happy, healthy, go-a-head, men and women, who are successful in everything they undertake. Phosphated Iron is to

MISS GRACE ODDY

day being used by hundreds of our people to help make red blood, strength and endurance. Take the case of Miss Grace Oddy, whose remarkable return to good health and strength has been a source of wonder and amazement as well as pleasure to her host of friends.

In discussing Phosphated Iron with our representative, she said, "Before taking Phosphated Iron, I was all run-down, a nervous wreck, due to never regaining my proper

strength after an operation four years ago. I could not sleep; my food did not digest, and I was wasting away day by day. Neither the best of physicians nor the most expensive medicines did me any good. Nothing seemed to help me; there was no joy in life.

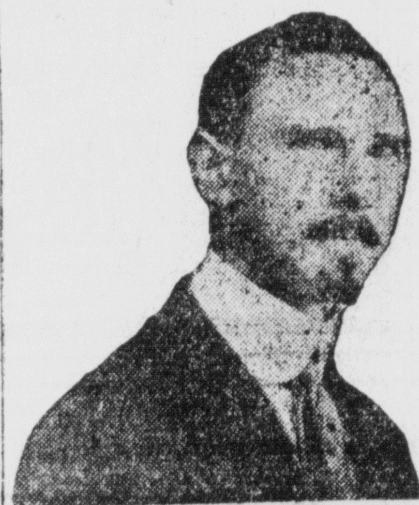

"After using Phosphated Iron only a few weeks, I felt like a new woman. I was never so strong. Think of it! My weight increased from 94 pounds to 113 pounds, a gain of nineteen pounds. I enjoy everything I eat, have lost all nervousness; my sleep is restful, and my appearance has improved 100%. Life once more is a pleasure.

"I feel so grateful that I want every nervous, run-down man or woman who reads this to take Phosphated Iron and renew their health, strength and happiness, as I have. Don't put off getting Phosphated Iron another day. It will make you feel 100% better."

In commenting on this interview with Miss Oddy, our representative said, "She looked and acted so healthy and vigorous that it hardly seemed possible that she was an invalid and only weighed 94 pounds. Miss Oddy certainly looked the picture of health and happiness, and fairly radiated strength and good spirits. Her eyes sparkled, and her cheeks were the color that only rich, red blood fed with iron can give."

When this remarkable case was called to the attention of Dr. Harlan Page, Prominent Authority and Consultant, and formerly House Physician to The Metropolitan Hospital

of New York, Dr. Page said: "This is nothing surprising to me. In my personal practice, I have seen hundreds of thin, nervous, run-down people, old and young, double their weight, regain their appetite, and sleep, and look years younger after a few weeks of Phosphated Iron."

DR. HARLAN PAGE, M. D.

Metropolitan Hospital of  
New York

Phosphated Iron, by enriching the blood and creating new blood cells, strengthens the nerves, rebuilds the weakened tissues, and helps instill new energy into the whole system. In my opinion, Phosphated Iron is the most valuable tonic any physician can prescribe.

Are you all run-down, weak or nervous? Then, you owe it to yourself to try Phosphated Iron.

Note: Phosphated Iron is obtainable from any good Druggist and comes only in capsule form. Beware of "just-as-good" or cheaper substitutes. Insist on genuine Phosphated Iron in capsules only. For sale by For sale by Frank Christopher, druggist, and leading druggists everywhere.
